

PATA 404-B

Advance Warning Area	
<p>MATCH LINE</p> <p>Diagram illustrating Option 1: Advance Warning Area signs installed on both sides of the road. The road has a grey asphalt surface with a yellow dashed center line. On the left side, there is a vertical sign labeled "MATCH LINE". Four orange diamond-shaped signs are placed along the road: one at the top labeled "ROAD WORK", three below it labeled "LEFT LANE CLOSED ---". On the right side, there is another vertical "MATCH LINE" sign. Four orange diamond-shaped signs are placed along the road: one at the top labeled "ROAD WORK", three below it labeled "LEFT LANE CLOSED ---". Vertical dimensions are labeled: "1/3L" between the first and second signs on the left, and "A" between the second and third signs on the right; "B" is between the third and fourth signs on the left, and "C" is between the third and fourth signs on the right; "D" is between the fourth and fifth signs on the left.</p>	<p>MATCH LINE</p> <p>Diagram illustrating Option 2: Advance Warning Area signs installed on the right side with two PCMS units. The road has a grey asphalt surface with a yellow dashed center line. On the right side, there is a vertical "MATCH LINE" sign. Four orange diamond-shaped signs are placed along the road: one at the top labeled "ROAD WORK", three below it labeled "LEFT LANE CLOSED ---". Two black rectangular signs labeled "PCMS" are positioned on the right side. Vertical dimensions are labeled: "1/3L" between the first and second signs, "A" between the second and third signs, "B" between the third and fourth signs, "1/2C" between the fourth and fifth signs, "1/2C" between the fifth and sixth signs, "1/2D" between the sixth and seventh signs, and "1/2D" between the seventh and eighth signs.</p>
